

Superintendent's Welcome:

The Chester Area School District enjoys a strong tradition of academic and extra-curricular success! The innovative opportunities provided in our school district demonstrate the value we place on being progressive. In my time as superintendent of schools, I have found the staff to be a dedicated and talented group of professionals. Our students, staff, and patrons take pride in our school. My role is to enhance the existing educational team by providing the support needed to move our district to an even higher level. The Chester Board of Education, administrative staff, teachers, and support staff will not be satisfied with the status quo. Together, we will continually strive to provide the best educational opportunities possible for our students within the financial factors involved.

The school district is committed to our mission statement: "Cooperatively Preparing All Students To Succeed As Life-Long Learners in an Ever Changing World." With support and encouragement from family, friends, and staff, every child in our district can excel to a level they never felt possible. Encourage our students to put forth the effort that it takes to be the best they can be!

My door is always open and I welcome your input and suggestions. A great school year just doesn't happen; each person in our school must make them happen. Let's make it a great year! Go Flyers!

Heath Larson, Superintendent
